***Status of Application***

1. This Office Action is in response to applicant's remarks and amendments filed on June 7, 2006. In the remarks, applicant amended claims 1 and 3, and kept claims 1-14 pending in the application. The applicant canceled claims 15-23 in a previous response.

***Allowable Subject Matter***

2. Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claim 1, Zhuang (US 003/0148545) and Zhuang et al. (US 6,664,117) teach a PCMO spin-coat deposition method, by a process similar to what is taught by the instant application.

However, Zhuang ('545) and Zhuang et al. ('117), as well as other prior art, fail to teach alone or in combination, spin coating the substrate with two concentrations of PCMO solution, wherein one solution has a greater concentration of PCMO than the other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
